a
Excited population p_e
Time t
b
Trajectory index
Time t
c
GKSL
trajectory average
$\langle p_e \rangle$
Time t
d
trajectory histogram
$w(t) = \Gamma |c_e^{(0)}(t)|^2$
Density
Waiting time τ
e
simulated records
Poisson, same mean
Probability
Emitted photons N_γ
f
trajectory Fano factor
Poisson baseline
$\mathrm{Var}(N_\gamma)/\langle N_\gamma \rangle$
Time t
