
a
energy order n
relative phase ϕ_2
b
initial phase $\Phi(\theta)$ (rad)
$\phi_2 = 0\pi$
$\phi_2 = 0.5\pi$
optical phase θ
c
dispersion α
optical phase θ
d
$2\pi\rho(\theta, \alpha_*)$
$\phi_2 = -0.5\pi$
$\phi_2 = 0\pi$
$\phi_2 = 0.5\pi$
optical phase θ
e
$|\langle e^{i\hat{\theta}} \rangle|$
$q = 1$
$q = 2$
$q = 3$
dispersion α
f
dispersion α
relative phase ϕ_2
